THE CIVIL SERVICE—HON. WM. H. ARMSTRONG.

It has been truthfully said that great men are never appreciated until after they have died, and it is equally true that our greatest and best Statesmen and Politicians are never fully appreciated by the people or by their immediate constituency until after they have retired from active life or from the arena of politics. Our very best men, those who have superior abilities, who are the most active and beneficial in regard to the interests of the whole country, as well as the best interests of their immediate constituents, are without exceptions, the men who are the most villainously libeled by the press and blatant stump speakers. If a man is not possessed of much mind—is a negative man, having no opinions of his own, and is like the clay in the hands of the potter, moulded to suit the wishes of any, or every one, who may see proper to use him, then he is invariably called a gentleman. The opposition press is lavish of its praise of him; because the opinion is that he works more injury to his own party and friends, than to the opposition. But when a man like Hon. Wm. H. Armstrong—a man of sterling worth and character, a man who, intellectually has few, if any, superiors in Congress, comes up for office, then it is that all the dogs in the Democratic kennel,

"Tray Blanche, Sweetheart and all"

are let loose, and the barking commences, and the most villainous libels are perpetrated or published to the world. But such men can not be injured. They may meet with temporary defeat, but strong in their manhood and relying upon the correctness of their principles, inherent virtue, and god like abilities they will, they must rise over all opposition and triumph, gloriously triumph over all their foes.

No better or truer man, nor one whose sympathies were more fully in unison with his constituents has ever represented in Congress, this district. The whole State of Pennsylvania has never produced a truer friend of the working, toiling masses, or an abler advocate of the great doctrine of "Protection to American labor" than is Hon. Wm. H. Armstrong. These facts cannot be gainsaid nor contradicted. And now that he will retire from office on the 4th of March, and thus leave our district in the hands of our enemies and of the British free traders, our people or many of them at least, will begin to appreciate the folly of their course in the last campaign.

Some of the ablest speeches delivered in the present Congress, have been made by our member. We were proud of him then, we are proud of him yet. For two years the House and Senate have fought over the best plan to reorganize and rejoin the Civil Service. The honor of settling the dispute and harmonizing all the interests of this extended and complicated service has fallen upon our member. We have no doubt it will pass. A few weeks ago he embodied his plan in a Joint Resolution. It was read twice, and referred to the Select Committee on the Reorganization of the Civil Service of the Government, and ordered to be printed. It is spoken of by the New York *Tribune* and other leading journals in the most favorable manner. Indeed, the *Tribune* pronounces it a master-stroke. It will correct vast abuses, without imposing unnecessary and rigid restrictions upon applications for office, and will be more flexible than a statute, which could hardly be adapted to the requirements of a varied and very extensive service, without being so full of detail that it would be impracticable. The following is the

JOINT RESOLUTION.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the President of the United States be, and he is hereby, authorized to prescribe such rules and regulations for the admission of persons into the civil service of the United States as will best promote the efficiency thereof, and ascertain the fitness of each candidate in respect to age, health, character, knowledge, and ability for the branch of service into which he seeks to enter; and for this purpose the President is authorized to employ suitable persons to conduct said inquiries, to prescribe their duties, and to establish regulations for the conduct of persons who may receive appointments in the civil service. The President is also authorized to prescribe fees to be paid by all persons applying for appointments, except such classes of honorably discharged soldiers as he may exempt, which fees shall be applied to the payment of the expenses of making such inquiries.

"UNDER WHAT KING BEZONIAN?"

The Philadelphia *Commercial List & Price Current*, publishes an article last week with the above caption. We are pleased to learn that the Editors of this most excellent journal, are coming to their senses. It is very seldom we find them in error, and the paper is, therefore, one of our most welcome exchanges. A few weeks ago, however, when they thoughtlessly proclaimed the doctrine that "Capital is King," and threatened the Crispins, and indirectly all workingmen, with an influx of Chinees labor if they did not submit to the exactions of monopolists, desist from strikes, and in all things obey King Capital, we took occasion to pen a few wholesome criticisms, calling their attention alike to the fallacy and danger of their proclamation.

Our article had the desired effect, and proves that the Editors of the *Price Current* are not only wise men but very apt scholars, and willing to learn, for we now find them declaring that they do not advocate a "kingship of Capital over labor," and that there is no place, either at the coal mines or in any other portion of our great Republic, where it should be true that "either Labor or Capital is King," but that "Justice alone should wield the scepter and wear the Crown."

Another improvement we notice, is, that they do not now cast all the blame upon the shoulders of the miners—upon "uneducated and selfish labor," but asks for a law "which shall protect the interests of the miners, transporters, capitalists and consumers. Thus admitting that the rights of labor have not heretofore been sufficiently protected or guarded, and have had to submit to the "intolerable tyranny of an oligarchy" composed of capitalists and heartless speculators. If all would act the part of the good Samaritan. If there were not so many capitalists who act the part of the Priest or Levite, who in their greed to accumulate wealth, forget that their employees are their neighbors, flesh and blood like themselves, and not beasts of burden, their would be no necessity for strikes and very little need of laws such as are suggested by the *Price Current*. But for want of space we submit the article to our readers, asking that they make their own comments or criticisms:

The collision which we have had to record from time to time between the coal miners and operators in different parts of this State, has been a source of so much loss and inconvenience to the general public for several years past, as to suggest the necessity of taking the matter out of the hands of the two contending factions, and applying the wholesome force of law to reach a decision which shall protect the interests of the miners, transporters, capitalists and consumers. Under other circumstances the contest might be allowed to go on indefinitely, or until one or the other party should find it convenient to surrender or compromise, but in this question of coal the public weal is interested just as much as it would be in a similar struggle about the price of bread, and a fair adjustment should be enforced by law if it cannot be reached by any other process. The public have been so long victimized by these periodical strikes at the coal mines, as to be disposed to welcome almost any scheme by which they can be stopped for all time to come. Of course we would not have it understood that we advocate a kingship of capital over labor, but neither do we desire to see the entire coal consuming community subjected to the intolerable tyranny of an oligarchy, or the great anthracite interest to the tender mercy of uneducated and selfish labor. What we advocate is a settlement by which alike monarchy, oligarchy and communism shall be thrown overboard, and the one common principle of justice and right alone be recognized. Neither at the coal mines nor in any other portion of our great republic should it be true to say that either labor or capital is king. Justice alone should wield the scepre and wear the crown, and any monopoly, whether of capital or labor, which makes all other interests pay tribute to it, should be cut down without mercy or favor as a fraud upon the public.

This being our theory on the general questions of monopolies and strikes, we can speak with more freedom on the question at issue. Whatever may be said of an oligarchy of capital, there can be no doubt that it is far preferable and less injurious to the true interests of the community, than the iron tyranny sought to be exercised upon the people by the so-called Miners' Union of Pennsylvania. From such inflictions we pray to be delivered. With a mockery of truth this Union is called the "Workingmen's Benevolent Association," but there never was such a misnomer since the world existed. Several hundred thousand industrious miners, in blissful ignorance of their best interests and of the general laws of trade, delegated supreme power to a species of sanhedrim, consisting of thirty-one members; to these men all questions in relation to labor and suspension of labor are submitted, and their decisions are without appeal and must be implicitly obeyed. In consideration of this surrender of their personal liberty and manhood, the "Union" professes to guarantee the miners a fair allowance pending all strikes authorized by the council. For a few weeks this pecuniary aid is furnished, after which it is gradually withdrawn, and the dupes have no alternative when pinched with hunger but to flee or starve, but by no means return to work. During the recent strike, it is said, a large number of miners who were able to pay for a steerage passage to Europe did so, and their productive industry is thus lost to the country; but those who had large families dependent upon them, were obliged to beg until the tyrants who rule them thought fit to allow them to resume work.

This has been invariably the upshot of all the strikes in the collieries of which we have any record, and nothing but the most obtuse ignorance could blind the eyes of the miners to the fact that whatever the council of thirty-one may gain by the extra handling of money which these strikes render unavoidable, the miners and their families, as well as consumers are heavy losers by the operation. The great coal companies, relying upon the sure aid of poverty and hunger, will always have it in their power to defeat any combination which the miners may make among themselves. If the latter have not yet ascertained that fact, it is high time they had.

The laboring people, especially skilled workman, are unquestionably the persons most directly benefited by a protective tariff. Capital is so mobile—so rapidly flows into branches of business which yield unusual profits, that very soon competition restores the equilibrium. But the amount of labor in a country being subject to no sudden expansion, an increase of wages is usualy a permanent gain to workmen. In the pamphlet on "The Stagnation of Trade," in England, "A Manchester Man" says: "Since the reduction of our tariff by Mr. Gladstone in 1853, upwards of 3,000,000 of our people have emigrated from the United Kingdom, and principally to extreme protective countries, in which their labor has found a more remunerative reward for themselves; but at the same time it has served to increase the foreign competition against England.

Yet the free-traders would persuade our artisans and mechanics that they are grievously wronged by the tariff. They would abolish it and turn back the golden tide of immigration by striking down our industries and enhancing the prosperity of those in Great Britain. And this they call political economy. It is certainly very bad economy for America though good for our rivals.—*Phila Press.*

An exchange notes the cry of "hard times," and truthfully attributes the cause, primarily, to the fact that too large a share of our people are trying to live by something else than productive industry. Other influences contribute, but this is far more potent than the whole of them. We are fast becoming a nation of schemers to live without work. Our boys are not learning trades, our farmers' sons are crowding into cities, looking for clerkships and petty offices; hardly one American girl in each hundred will do housework, however urgent her need. So we are sending to Europe for workmen, and buying of her artisans millions' worth of products that we ought to make ourselves. There can be no doubt that our boys and girls must be taught to love labor, by qualifying themselves to do it efficiently, if we would better matters in the future at all.

An Important Decision.—The Supreme Court of New York has decided that railroad companies cannot refuse to deliver grain in bulk to any warehouse to which it may have been consigned, situated so as to be reached within its termini on routes in the usual line of its freighting business. The position held by the court is, that when a railroad company is chartered, it becomes a common carrier along its route, and all rules and contracts are subject to the laws governing common carriers. The decision is equitable and has an important bearing on the general trade interests.

Our modern course of living begets a condition of the body that requires occasional relief. The system becomes enfeebled, deranged, clogged and labors in its task. mind sympathizes with it and both sink, or are depressed together. To restore the vital energies, purge the system—cleanse the blood—take Ayer's Pills. [Glasgow, (Ky.) Free Press.

MASONIC REUNION.

Messrs Editors:—On Wednesday evening last, February 22d, we had the pleasure of attending the first Annual Reunion given by Bellefonte Lodge, No. 268, A. Y. M., at their rooms in Bush's Arcade.

Not less than three hundred persons were present. None were admitted but members of the order, and ladies. A special train from Lock Haven brought about forty couples; some were present from Clearfield, some from Philipsburg, Tyrone, Jersey Shore and other places.

About eight o'clock they began pouring in, and by nine the large lodge room was filled to its utmost capacity. While waiting for the appointed time of opening, we had ample opportunity to admire the elegant and chaste manner in which the lodge room was decorated.

The room itself is the best furnished in town. On the east side, opposite the entrance and in the rear of the Master's desk, was a large square and compass made of evergreen, with a portrait of Washington in Masonic regalia in the centre. Above this, in a semi-circular form, was the word "welcome," also made of evergreen. This was all surmounted by elaborate festoon work.—On the right of this was a large portrait of Washington, beautifully ornamented with wreaths and the "flag of *his* country. On the left was a portrait of Andrew Jackson, ornamented in the same way. Opposite, there was a large portrait of Gov. Curtin, on its right, another, of his father, and on the left, of our venerable townsmen Maj. James Armor. The North and South walls were decorated with a goodly number of oil paintings, chromos, portraits and steel engravings, wreaths, festoons and flags. Altogether, the room could not have looked better. This decoration, the young ladies and gentlemen in their full-dress toilets, old men and women, their heads white with age, widows and orphans of deceased Masons, the mystic emblems of the craft and the strains of music from the ball room, combined to make it one of the most charming and magnificent spectacles we ever witnessed.

We noticed at this point, as well as during all the evening the entire absence of caste. The blacksmiths wife and the bankers daughter, the laborer and the professional man, all met upon the same *level*. There appeared to be no conquests to make, no selfish desires to be gratified, the true masonic spirit seemed to pervade the entire assembly and actuate every impulse.

At the appointed time Senior Warden, Adolph Loeb called the assembly to order, letters were then read from distinguished masons who could not be present, after which George M. Yocum, Esq; Master of the lodge, delivered an address which we furnish below. It was delivered in his usual forcible manner, and was enthusiastically applauded.

Several appropriate songs were then sung by ladies and gentlemen present, in excellent style. The inviting notes of Prof. Daurer's Orchestra, now brought many of the lovers of the dance to the ball room. We were especially pleased with the orchestra and floor management. All differences of opinion as to the propriety of dancing seemed to have been left to those who were unavoidably absent. Every body danced that knew how and they all seemed to know.

"Old people danced, who never danced before,
And those who always dance, they only danced the more."

A short time before the banqueting hall was thrown open for supper, we were invited to take a look at the tables. Nothing could have been more *recherche*, and the highest compliment we can pay the executive committee is to say that the supper was only in keeping with the other appointments of the Reunion. Supper was served from half past ten until two o'clock. At half past one the excurtion train started for Lock Haven, the excurtionists as much delighted apparently with their visit as their host (Lodge 268) was to have them present. We must say that a nobler set of gentlemen and a fairer lot of ladies never composed an excurtion party from Lock Haven or any other place.

In every particular the Reunion was a success, and as a social entertainment it has never been excelled in this place. The different committees left nothing undone that could have added to the comfort and pleasure of the guests. Worshipful Master Yocam has great reason to feel proud of the cordial and unanimous support given him by the lodge over which he presides, and the first "Annual Reunion" is an epoch in his administration that will long be remembered.

VISITOR.

ADDRESS BY GEO. M. YOCUM.

Ladies and Gentlemen:—To me is assigned the pleasing task of welcoming you to our lodge room. The occasion, the goodly company assembled and the inviting notes of coming festivities combine to warn me against any extended remarks.

In the name of Bellefonte Lodge, No. 268, I therefore, bid you one and all, a hearty welcome to our First Annual Re-union.

We are met here this evening, ladies and gentlemen, as the *friends* of Masonry, and it is not necessary, nor indeed would it be proper that I should enter into a defense of this institution. Masonry seeks no defender—needs no defense. For more than 2000 years it has stood before the world, witnessed the rise, progress and fall of almost every human institution of which history speaks, and its deeds whether they be good or evil are written all over the habitable globe—if *they* do not commend it, no words of mine can render it respectable. The wise, the good, the great of all climes and nations have for many centuries enrolled their names on its venerable banners—*if their lives are voiceless*, no human tongue need speak its praises.

A young man in the glow of early manhood, just entering upon the rugged path which leads to usefulness and honor may be benefitted by judicious commendation or injured by unmerited censure; but the old man who has braved the storms of seventy winters—fought his way up to the meridian of life, and gained the calm retreat of old age, crowned with honor—smiles with complaisance at the wiles of flattery and the aspersions of envy and *proudly* points to his life as the charter of his nobility.

Masonry urges no man to enter her temple, she excludes none who are found worthy. She seeks no commendation and fears no censure. Conscious of her own integrity, she *allows* no one to become her champion, but proudly points to her own history as the impenetrable armor of her defense.

It is often asked by the uninitiated if the objects of Masonry be good and its principles elevating, why are ladies excluded from its sublime mysteries? In reply to this we would say that it is not as some base maligners of the sex, have dared to intimate on account of their extreme *communicativeness*, but for wise prudential reasons. Masonry took its origin in a rude age of the world, when society retained much of its primative simplicity, when home with its hallowed associations and refining influences, home with its sacred joys and tender memories, home though it was but the rude tent on the arid desert was regarded as woman's highest, holiest sphere. It will hardly be alleged that armies and navies have been devised for the exclusive protection of men; yet woman is excluded from these ranks of honor, toil and blood; so too, Masonry excludes woman from its labors; but never from its protection, never from its beneficent regard.

It is impossible that the world should fully understand the power of Masonry. It siezes upon the strongest and best impulses of our natures and unites them with an immortal bond. It draws together the considerate, the moderate and the benevolent of every tribe and tongue and presents a common platform upon which all may stand with dignity and safety. It avoids every pretense for dissention by omitting every dogma upon which good men disagree. It embraces within its ample philosophy almost every precept which has challenged the universal approval of the thinking world.

The symbols of Masonry are universal as the laws of nature and need no interpreter. They speak the same language to the savage and the philosopher, and could the toiling thousands who reared the first temple at Jerusalem rise from their unmarked graves, they would read the same old story which thrilled their hearts in the days when King Solomon ruled in the oriental chair.

Masonry has been well defined to be a system of morality veiled in allegory, illustrated by symbols. Its aims are wide as humanity, and its labors and enjoyments suited to the taste and capacity of good men of every age and nation. To the young man it offers rich fields of intellectual culture, gemmed with the lore of forgotten ages; to the middle aged it presents noble duties to be performed and high honors to be won; to the old man it reproduces the cherished scenes of the past, unchanged when all else is changed, and he lingers around its sacred alters as the last link which binds him to mortality.

In this age of change and progress, when public opinion like some remorseless Juggernant rolls over the world demolishing the cherished institutions and opinions of the past in a single day, rebuilding them with the airy fabrics which the fickle fashion of the hour may dictate, it is pleasant to find some *old rock*, rugged and worn it may be by the lashing waves of a thousand centuries, but still erect and firm as the everlasting foundations of nature upon which it is based, there it stands, a land mark of the past, a beacon to the future, defying alike the ravages of time and change and symbolizing the stability of eternity!

Such, ladies and gentlemen, is ancient craft Masonry. Founded by good men of old, with whom God deigned to hold familiar converse, it embraces much of religion; cherished by the learned in the early ages of the world it is the patron saint of architecture and art; unchangable by its own limitations it combines the conservative ideas of mankind.

We are met here this evening, ladies and gentlemen, for a double purpose, to celebrate the natal day of him who was not only the father of our common country, but also a prominent member and patron of our order; and also to cultivate those social relations which form the great staples of human enjoyment.

Washington was made a mason on the 6th day of November, 1752, at Fredericksburg, Virginia, being then in his 21st year, he was passed to the degree of a Fellow Craft, on the 3rd day of March, 1753, and raised to the sublime degree of a Master Mason, on the 4th day of August, following. On the 18th day of January, 1780, a meeting was held at Philadelphia composed of delegates from the Grand Lodges of the several states to consider the propriety of forming a grand lodge of the United States. The proposition was favorably acted upon and General Washington was unanimously chosen First Grand Master of the United States. From causes which we need not here stop to explain, this proposition failed to meet with the approval of the several grand lodges, and has never since been consummated, but the unanimous action of this august body of men, serves to illustrate the estimation in which General Washington was held by his Masonic brethren. His attachment to the craft was unwavering through all his eventful career, and its congenial labors occupied much of his time in his declining years amid the peaceful enjoyments of his own loved home at Mount Vernon.

Of his moderation and virtue as a citizen, his patriotism and valor as a soldier, his profound wisdom as a statesman, I need not speak. The artist has written them upon his canvass in letters of living light, the poet has woven them into the music of immortal song, the sculptor has embodied them in the imperishable rock, tradition has handed them down from heart to heart, as its choicest treasures, history has recorded them with a pen of iron and fame, with her ten thousand trumpet tongues, has proclaimed them wherever human hearts aspire to freedom!

Ladies and gentlemen, again we bid you welcome to our Lodge room. To us it is endeared by a thousand pleasing memories, your presence to-night will add a golden link to the chain. The hour is propitious for enjoyment. Let then, every eye be unclouded, every brow unbent, and amid the smiles of beauty, with songs of gladness, let us celebrate this festal day.

"It cannot be expected that individuals should, at their own risk, or rather to their certain loss, introduce a new manufacture, and bear the burden of carrying it on until the producers have been educated up to the level of those with whom the processes are traditional. A protecting duty, continued for a reasonable time, will sometimes be the least inconvenient mode in which the nation can tax itself for the support of such an experiment."—*Mill's Political Economy, Book V., Chapter X., Section 1.*

It is stated that the free-trade movement at Washington to secure a reduction of the tariff on wool, iron, and salt is becoming stronger as the present session of Congress draws to a close.—The effort to lower the duties on wool will be especially strong, and an attempt will be made to get a bill through at the present session accomplishing this object.

Consecration Hymn.

BY REV. J. BENSON AKERS

Jesus, I would be thine,
Thy name to glorify;
Thine through this life's uncertain stay,
Thine when I come to die.

My wandering thoughts bring in,
Blest Savior to thy will;
And may I with unwearied powers,
Thy righteous law fulfill.

Possess my inmost heart,
My every wish control;
Reign blessed Savior ever there,
Unrivaled o'er my soul.

Command my heart away,
From every earthly good;
Nor let the anxious cares of life,
Upon my peace intrude.

Thus may I ever live,
In thine embrace secure;
Blessing and grace from thee receive,
And to the end endure.

Then when the tie that binds,
My soul to earth is risen;
Send down, blest Savior, in thy love,
And take me home to Heaven.

The Change of a Century.

The New York "Herald," in an article on "The Dawn of the New Year," makes the following remarks on the changes of empires and the advance of science within a century; "The year 1870 will undoubtedly be entered upon the record of the nineteenth century as the most prolific of international change and of imposing events that has rolled by since the period of the first French Revolution, and in many of its relations and effects it has surpassed that wonderful period. The spaces, numbers, intelligence and results that its political convulsions have directly influenced, are incomparably greater than they were one hundred years ago, The States and empires then called great were pigmies compared to their extent and forces of to-day. If Great Britain has, since then, lost her American colonies, she has gained others of far vaster immediate wealth in India and Australia. France has stretched forth her powerful arms in Algeria, Cochin China, Madagascar and the South Seas; Russia has added whole kingdoms to her realm in the East; Italy has become a first-class Power instead of "a geographical expression;" Greece is Independent; Egypt is, in all but diplomatic form, a strong and enlightened State; China and Japan have both been opened to outside traffic and treaty; South and Central America and the adjacent islands are a series of empires and republics, and even on the far north of this Continent a growing viceregal Dominion has sprung, up where then but a few sparse settlements were struggling into existence. The channels of intercourse and the count of human beings are, compared with their aggregate in 1792, as five to one, and these again are multiplied indefinitely by iron nerves and highways and the miracles of the electric force and steam. The hissing engine and the thrilling wire are the true democratic wizards which have shattered the images of monarchical superstition and have propagated their kind with bewildering rapidity wherever, like Cadmus in a modern garb, they have cast not idle pebbles, but iron bars, the crystallized representatives of the people's sweat and toil, and planted their standards to attract and subjugate the invisible spirit of the storm. Revolution and the wars that precede it, therefore, move in these days by steam and by lightening. They touch the sands of Sahara, and a broad channel for commerce cut the barrier between the Red Sea and the Mediterranean, bringing the East and the West months nearer to each other; they leap to the summits of the Rocky Mountain passes, and New York elbows San Francisco; they plunge into the heart of the Alps, and its granite melts before them; they dive into the depths of Ocean, and the cry of the Old World, be it joyous or sorrowful, is still ringing in the streets of ancient capitals when it arouses the echoes of towns of scarcely a year's growth on the easternmost shores of the New Continent. This to diminish time and space, and to aggrandize humanity *in* untold proportion. Hence, when 1870 brought us the Ecumenical Council; the downfall of the French Empire and of the Napoleonic dynasty; the Italian occupation of Rome and the suspension of the temporal power of the Pope; the realization of German unity and the revival of a grand confederated German empire of seemingly resistless statesmanship and military skill; the actual eruption of the Oriental volcano usually styled the Eastern question, and the sudden reappearance of Russia as the "compelling Jove," who has kindled the flame and is preparing to hurl the thunderbolts that are to rend and overwhelm the citadels of Mohammedan empire—1870 rose to the dignity of an epoch—nay, of an era—remarkable and memorable to all posterity."

Skinflint—who "gave nothing to street beggars"—buttoned his pockets on being approached by a soldier, and said: "My dear fellow, I never can repay the debt I owe you—the debt we all owe you for your noble self-sacrifice! Money can't do it! Is of no use trying!" With this patriotic utterance he walked away.

Country Newspapers and Country Editors.

Under the above caption, the New York "Democrat" has a lengthy and truthful article which most country editors can duly appreciate. Among other good things he says: To well edit a country newspaper is one of the most difficult undertakings imaginable. It is harder work to well edit a first-rate local country newspaper than to edit a daily in a large city, and requires more versatility of talent. The country editor is a peculiar institution. He has an arduous time of it. If his paper is worth a farthing, he must make it so by work. He must know everything, from the formation of Grant's Cabinet, to the most improved method of cleaning pigs' feet.

He must be able to write understandingly on the tariff, specie payment, the art of curing sick horses, the best lubricating metal for wagons, the cost and profit of raising this or that breed of hens, ducks, pigs, sheep, cattle, and horses.—He must be posted as regards the general health of his immediate vicinity; must know who the best physicians are, and, in case of death, must recommend an undertaker. He must know who brings in new goods and whether they are to be sold cheap or not. He is expected to attend all the funerals and to mourn with those who mourn. He must attend all the weddings—at least it is expected that he will write a puff for the parties married, and give them a good send-off through the paper, no matter whether he was invited to the feast, been presented with a piece of cake, or paid for the time consumed in writing or space taken in his paper. When comes election time, it is expected that he will write the calls for the primary caucuses; then instruct the country committee when to call their convention, write the notice for the same, give publicity thereto for nothing, and, when comes the day, be sure to attend as a delegate. If he goes as a delegate, politicians in his neighborhood will be very apt to curse him, and accuse him of trying to crowd himself forward, backed by a newspaper which is supported by the public! If he does not attend the convention his enemies will say that he has no influence, therefore his words will have no weight. When the candidates are nominated, he must give the rise and progress of each one, ending the notice with a personal compliment. He must then see to having election returns sent to him promptly, paying for this work from his own pocket. He must print the election tickets and charge them to "The Committee," which committee, as a general thing, never pays. Perhaps for all this he can have the privilege of doing a few hundred dollars' worth of village, town, city, or country printing, realizing about seven cents for every sixty lies he has been obliged to tell in favor of the successful candidates.

A LETTER from Florida gives a charming description of midwinter in that State. Says the writer: "A walk of two hundred yards brings me to the sheltered edge of a swamp bordering the field, where, during all this time, I have, when inclined, gathered blue violets by the handful, that grow wild and bloom in healthy luxuriance. Here and there the garden is dotted with the purple flowers of the common phlox that springs from the scattered seeds of last year's growth. In a neighbor's garden, across the street, a bed of verbenas blooms in modest triumph in the open air, and for ten days past the wild jessamine has been hanging its yellow bells on the shrubs and bushes of favored and protected nooks. Nor are the flowers entirely alone. Bluebirds flit about the garden, and half a dozen different mocking-birds make the place vocal from morning to night, cageless and careless and happy. And when with this presence of flowers and singing of birds,, the rosy blushes of a gorgeous sunset are mirrored in the still glassy surface of the river, until it looks as flushed and warm as the summer air that baths the landscape, it is not difficult to forget that this is the month of January, as that at this moment the boreal blasts up north may be driving an army of snowflakes before them, large enough to envelop the whole northern belt of the temperate zone from oregon to Maine, and cold enough to chill and paralyze, for a little while, that restless movement of commerce and travel that has made the steamer, the railroad and the telegraph the indispensable nerves and arteries of its life."

PROMPT AND COOL.—In a Wyoming tavern a mountain rough, venomously drunk, was practicing with his revolver at various objects in the bar room. An ox teamster entered, called for a drink, and a ball from the rough's pistol shattered the glass at his lips. Without a word the bull whacker put his hand behind his back, produced his pistol, levelled it at the ruffian's head and remarked, as the body fell on the floor: "That scoundrel would have hurt somebody soon." He then filled another glass and drank the contents, strode out as deliberately as he had come in, and, with a "Whoa, haw there," started his oxen up the road.

THE young King of Greece is addicted to croquet, but his medical advisers have ordered him to abandon it on account of the danger of cerebral excitement.

Late Hours.

Henry Ward Beecher preached recently on 'Late Hours and the Unfruitful Works of Darkness.' He said:

If you want to make the ruin of your child sure, give him liberty after dark.—You cannot do anything surer to insure his damnation than to let him have liberty to go where he will without restraint. After dark he will be sure to get into communication with people that will undermine all his good qualities. I do not like to speak to parents about their children. Their child will not lie, when his tongue is like a bended bow; he will not drink when there is not a saloon within a mile of his father's house where he is not as well known as one of its decanters, he never does iniquitous things when he is reeking in filth. Nineteen out of every twenty allowed perfect freedom at night will be wounded by it.—There is nothing more important than for a child to be at home at night; or, if he is abroad you should be with him. If he is to see any sights, or take any pleasure, there is nothing he should see that you should not see also. It is not merely that the child should be broken down, but there are thoughts that never ought to find a passage in man's brain. As an eel, if he wriggles across your carpet, will leave his slime which no brushing can ever efface, so there are thoughts that can never be got rid of, if one be permitted to enter: and there are individuals going around with obscene books and pictures under the lapels of their coats that will leave ideas in the mind of your child that will never be effaced. There are men who have heard a salacious song, and they will never forget it. They will regret having heard it to the end of their lives. I do not believe in a child seeing life as it is called, with its damnable lust and wickedness, to have all his imagination set on fire with the flames of hell.—Nobody goes through this fire but they are burned; and they can't get rid of the scars.

How to Treat a Wife.

We have somewhere met with a few instructions which may serve you. Patience and cheerfulness are the great requisits in married life. You may have great trials and perplexities in your business with the world, but do not therefore carry to your home a clouded or contracted brow. Your wife may have many trials, which, though of less magnitude, may have been as hard to bear. A kind, conciliating word, a tender look, will do wonders in chasing from her brow all clouds of gloom. You encounter your difficulties in the open air, fanned by heaven's cool breezes; but your wife is often shut in from these healthful influences, and her spirits lose their elasticity. But, oh! bear with her; she has trials and sorrows to which you are a stranger but which your tenderness can deprive of all their anguish. Notice kindly her little attentions and efforts to promote your comfort. Do not take them all as a matter of course, and pass them by, at the same time being very sure to observe any omission of what you may consider due to you. Do not treat her with indifference, if you would not sear and palsy her heart, which, watered by kindness, would, to the latest day of your existence, throb with sincere and constant affection. Sometimes yield your wishes to hers. She has preferences as strong as you, and it may be just as trying to her to yield her choice as to you. Do you find it hard to yield sometimes? Think you it is not difficult for her to give up always? If you never yield to her wishes, there is danger that she will think you are selfish, and care only for yourself, and with such feelings she cannot love you as she might. Again show yourself manly, so that your wife can look up to you and feel that you will act nobly, and that she can confide in your judgment.

PARSON GREGG, recently, "in the name of the Lord," put a head on certain of the ungodly in Lancaster, Pa. It seems that whenever the parson succeeded in getting up a revival, certain indecorous sinners marched from an adjacent town into his village and raised general Cain among the faithful. They drank, and swore and cat-called, and meeting the parson, invariably insulted him by inviting him to drink. So on the evening of the 28th of January, when these villains had become unusually satanic, this parson militant quietly drew off his coat and went for these Philistines in very scientific style. Jim Page Bedloe, the most outrageous of the heathen, was basted in first-class style, and then the gallant parson went for the others, but they took instantly to their heels, and the place that knew them knew them no more for ever. The parson then continued his sermon and took hold of the horns of the altar in a way that brought every sinner in the vicinity to immediate repentance.

A remarkable instance of the efficacy of abstaining from medicine is to be found in a Virginian lady who has reached the age of ninety-six. Throughout all the ninety six years of her life she has taken but three pills, has buried three husbands, has had a large family of children, and still spins as merrily and as blithely as a maid of "sweet sixteen." Evidently her motto in life must have been either "Physician, cure thyself," or "Throw physic to the dogs."

Social Intercourse for Farmers.

Farmers necessarily live at considerable distances from each other, and in consequence of this and their habits of study labor, confine themselves too much to their own fields and firesides. They and their familes need recreation, need pleasure, need something to counteract the effect of the constant labor in which they are engaged. The mechanic in the village or city has his mind frequently drawn away from his work by that which is going on around him, but the farmer, being differently situated, finds nothing to break up the monotony, unless he seeksfor it elsewhere.

It is quite probable that more work would be accomplished, and a better tone of feeling be experienced, to say nothing of the more cheerful countenance which would be worn, if a half day each week were given to social intercourse with fellow-farmers, instead of devoting six full days each week to unremitting labor. After a day spent pleasantly away from home, the labor is not irksome—the laborer is happier. Allowing as much was not accomplished by giving a little time to relaxation, it should be borne in mind that food and raiment for the family, forage for the stock, and money for the bank, are not the only things worth striving for. We need happiness as well. But if a portion of this time be given to a wide-awake farmers' club, ideas will be gained, practical knowledge acquired, which time will bring about results far in excess of those which will be realized by the farmer who does not improve these opportunities.—*N. E. Farmer.*

—We printed on Saturday an account of a double baby in Jefferson county. We find the following account of a similar monstrosity in the Wayne county *Citizen*: Dr. D. B. Hand, of South Canaan, has in preservation a monsirosity, which is a more remarkable freak than the Siamese twins. Twin female babies, each perfectly formed and developed in every respect with the exception that they have but one body; being united from the lower portion of the abdomen to the top of the chest. The heads face each other. They have separate organs of respiration, digestion, &c. One of them lived a few minutes after birth. They weighed immediately after birth fourteen pounds seven ounces. The mother is living and doing well.—"Pittsburg Commercial."

COMPLETION OF THE PACIFIC RAILROAD.

GREAT RUSH TO STERNBERG'S.

Sung to the tune of Yankee Doodle.

The Great Pacific Railroad's laid,
From ocean unto ocean,
And now complete connections made,
An enterprising notion.

The mighty work at last is done,
So speedy and brisk, oh!
And now in ten days we can run
From here to San Francisco.

No more we take the ancient route,
The stage, a horrid slow thing;
It banged the passengers about
And wore out all their clothing.

CHORUS, for the end of each verse:

The Great Pacific Railroad laid,
From ocean unto ocean,
And we buy clothes from A. STERNBERG,
A most delightful notion.

Through passengers by the Pacific Railroad will call at the store of A. Sternberg, before starting, and provide themselves with a complete outfit of Spring and Summer clothing, the very best assortment of which will always be found at A. Sternberg's Store.

People who travel by other routes, and also peoplewho, instead of travelling by any route at all, prefer to stay at home, can find the most superior and seasonable garments, for every occasion, of every variety, and at the lowest price.

Do not fail to call and examine our stock before purchasing elsewhere; if you do not, we are sure you will be sorry that you did not. Our goods are put down to the lowest figure. We sell whole suits, according to quality.

DR. PIERCE'S ALT-EXT. OR GOLDEN MEDICAL DISCOVERY

The originator of this wonderful medicine, claims to have discovered and *combined in harmony* more of Nature's most sovereign medical properties than was ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of *Bronchitis, Severe Coughs*, and the early stages of *Consumption*, it has astonished the medical faculty, and hundreds of the best physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and purifies the blood. By its great and thorough blood-purifying properties, it cures all *Humors* from the worst *Scrofula* to a common *Blotch, Pimple or Eruption*. Mercurial Disease, Mineral Poisons, Syphilitic and Venereal Diseases, and their effects are eradicated and vigorous health and a sound constitution established. *Erysipelas, Salt Rheum*, Scald head, Fever Sores, Scaly or Rough Skin, in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying and invigorating medicine For "Liver Complaint," Bilious Disorders and Habitual Constipation, it has produced hundreds of perfect and permanent cures where other medicines had failed.

The proprietor offers $1,000 reward for a medicine that will equal it in the cure of all the diseases for which it is recommended. Beware of counterfeits and worthless imitations. See that my private Government Stamp, which is a positive guarantee of genuineness, is upon the outside wrapper. This medicine is Sold by Druggists at $1.00 per bottle. Prepared by R. V. PIERCE, M. D., Sole Proprietor, at his Chemical Laboratory 143 Seneca street, Buffalo, N. Y.

ROSADALIS.

THE GREAT AMERICAN health RESTORER, purifies the blood and cures Scrofula, Syphilis, Skin diseases, Rheumatism, and all Chronic Affections of the blood, Liver and Kidneys. Recommended by the Medical Faculty and many thousands of our best citizens. Read the testimony of Physicians and patients who have used Rosadalis; send for our Rosadalis Guide to Health Book, or Almanac for this year, which we publish for gratuitous distribution; it will give you much valuable information.

Dr. R. W. Carr, of Baltimore, says

I take pleasure in recommending your Rosadalis as a very powerful alterative. I have seen it used in two cases with happy results—one in a case of secondary syphilis, in which the patient pronounced himself cured after having taken five bottles of your medicine. The other is a case of scrofula of long standing, which is rapidly improving under its use, and the indications are that the patient will soon recover. I have carefully examined the formula by which your Rosadalis is made, and find it an excellent compound of alterative ingredients.

Dr. Sparks, of Nicholasville, Ky., says he has used Rosadalis in cases of Scrofula and Secondary Syphilis with satisfactory results—as a cleaner of the Blood I know no better remedy.

Samuel G. McFadden, Murfreesborough, Tenn., says:

I have used seven bottles of Rosadalis, and am entirely cured of Rheumatism; send me four bottles, as I wish it for my brother, who has scrofulous sore eyes.

Benjamin Bechtol, of Lima, Ohio, writes, I have suffered for twenty years with an inveterate eruption over my whole body; a short time since I purchased a bottle of Rosadalis and it effected a perfect cure.

Rosadalis is sold by F. P. GREEN, and Druggists generally.

CARBOLIC TABLETS

PREPARED BY DR. WELLS.

The most important discovery of the age is this wonderful Healing and Cleansing agents for all diseases or weakness of the Respiratory Organs, Sore Throat, Sudden Cold, Hoarseness, Catarrh, Asthma, Dryness of the Throat or Windpipe, diseases of the Lungs and for all irritation of the mucuous membrane.

All vocalists and public speak and sing without effort, use these Tablets, their effect in clearing the voice is simply astonishing as can be shown by numerous certificates.

Dr. Well's Carbolic Tablets

act directly on the mucuous membrane and should be promptly and freely taken in all exposure or violent change of weather, as they equalize the Circulation of the Blood and thus ward off all tendency to colds and Lung difficulty.

The proprietors would say, all first class medicines have their imitations, and they would Caution the public against imposition by having other medicines thrust upon them in place of these admirable Tablets.

COUGH NO MORE.

WARNER'S COUGH BALSAM is healing, softening and expectorating. The extraordinary power it possesses in immediately relieving, and eventually curing, the most obstinate causes of Coughs, Colds, Sore Throat, Bronchitis, Influenza, Catarrh, Hoarseness, Asthma and Consumption is almost incredible. So prompt is the relief and certain its effects in all the above cases, our physicians are daily prescribing it, and one and all say that it is the most healing and expectorating medicine known. One dose always affords relief, and in most cases one bottle effects a cure. Sold by druggists, in large bottles. Price One Dollar. It is your own fault if you still cough and suffer. The Balsam will cure.

WINE OF LIFE.

The great Blood Purifier and Delicious Drink, Warner's Vinum Vitæ, or Wine of Life, is free from poisonous drugs or impurities, being prepared for those who require a stimulant. It is a splendid appetizer and tonic, and the finest thing in the world for purifying the blood. It is the most pleasant and delicious article ever offered to the public, far superior to brandy, whiskey, wine, bitters, or any other article. It is more healthy, and cheaper. Both male and female, young or old, can take the Wine of Life. It is, in fact, a life preserver. Those who wish to enjoy good health, and a free flow of lively spirits, will do well to take the Wine of Life. It is different from any thing ever before in use. It is sold by druggists; also at all respectable saloons. Price, One Dollar, in quart bottles.

Wednesday Morning, March 1, 1871.

CONFEREE.—The Republican Senatorial Conferee meeting will be held in the Borough of Huntingdon, on Tuesday, the 7th day of March, at the Jackson House at 4 o'clock, p. m.

FOREIGN NEWS---FRANCE AND GERMANY.

Just before going to press, we learn that peace, in France, has come at last, the preliminaries having all been adjusted. Thiers and Favre, and the consultative commission have accepted the following conditions:

1st. The cession of Alsace and Metz, but Belfort is to be restored to France.

2nd. Payment of a war indemnity of five milliards of francs.

2d. A portion of French territory, with some fortified town like Sedan, to remain in possession of the Germans until the conditions of the treaty are fulfilled.

4th. The German army to enter Paris on Monday and occupy the Champs Elysees.

These terms are the best that France could secure, and show that Germany, determined to reap the fruits of her great success, can be magnanimous. The indemnity exacted, five milliards of francs, is equal to $950,000,000.

A special dispatch from Paris, to the London *Times*, dated Feb. 25th, says:

"The French object more to the form than to the substance of the Prussian terms. The preliminaries have been assented to, but the conditions and stipulations of the treaty of peace are not yet agreed to. The French are endeavoring to obtain the abandonment of certain distressing conditions.

The treaty of peace is, however, regarded in Paris as having been signed.

The Duke of Broglio presented his credentials to the Queen yesterday as embassador of France.

A special dispatch to the New York *World*, dated Paris, Feb. 26, says:

"The announcement of the signing of the treaty of peace has produced a feeling of relief throughout the city. The reduction of the indemnity demanded by the Germans and the restoration of Belfort are regarded with gratification.

Every preparation has been made at Versailles for the entry of the German army into Paris, to-morrow, in brilliant array. The Parisians will close their houses and remain invisible.

It is stated that England interfered at the last moment, objecting to the ceding of Metz to Germany. She says it shall not be done. She has also prevailed upon the Germans to abandon their march through Paris. The troops will only pass through the open spaces South of the city. There is great suffering in Paris. Provisions are scarce and thousands are dying from starvation.

SAN DOMINGO.

We know not, nor can we even guess what will be the ultimate fate of President Grant's measure for the purchase and annexation of San Domingo. It is a question around which cluster many difficulties, and in the end, the sense of Congress may be against it, and it may be defeated.—But while the question is yet pending, and undecided, the following remarks of the Chicago *Post*, calm, cool and clear, may not be out of place. The *Post* says: "We doubt whether an instance of greater fairness and patience can be found than that of the friends of the annexation of San Domingo. Their policy has been misunderstood or misrepresented, constantly misrepresented from the beginning. It has been denounced as a "job," and a matter of speculation, and the fact that some persons would take advantage of the success of the policy to make money, has been turned into an argument going to show the corruption of the scheme. Even the feeling resulting from the alarm in respect to the *Tennessee* has been outrageously used in this poor business. Nevertheless, the friends of annexation have been all the time patient, good-natured, and serene. They have bided their time. They certainly had a right to expect after a commission, composed of men eminent for intelligence and integrity, had been authorized to examine into and report the facts of the case, that their proceedings and report would be attentively and candidly considered. It appears that this expectation was not based upon a correct judgment of the sense or honesty of some of the opponents of the measure. They continue to prejudge the case, and to make themselves ridiculous. Thus, the Chicago *Tribune* of this morning treats the matter with even unusual flippancy, and would doubtless accomplish an unusual feat of stupidity, were that possible, and endeavors to be witty upon the alleged productions of the island, namely, rags, fleas, and contagious diseases. There is no doubt that portions of San Domingo are fertile, and with good tillage, might be made exceedingly productive of articles of food not produced, to great extent, in these States. But it is not as an agricultural region that the country is desired. Considerations of a commercial, international, political nature have been the real arguments of the annexationist. One might as well argue against the possession of the key to the Mediterranean because no beans or turnips grow on Gibraltar, as to argue against the possession of San Domingo with such reasoning. The principal point is the acquisition of a foothold in the West Indies. The result is Cuba, commercial supremacy. And this continental policy, looking to our future necessities as they are clearly shown to those who can see beyond the end of their intellectual pug noses, is sent to the bad because the island desired as a foothold does not rank high in men and productions! Plymouth Rock is not remarkable for its agricultural resources, but thence sprang the mightiest nation of the world. We want to plant American ideas in the West Indies, and they will grow there, if we once get possession of a considerable island as certainly as wheat will grow in Minnesota. If men will reflect upon the true considerations which control a question of this sort, they will perceive that the most important inquiry to be made by the Commission is that in respect to the sentiment of the people upon the subject of annexation. If they prove to be favorable, the great point is gained. They will in good time become Americans. We shall not become Dominicans. Then by the law of gravitation, other portions of the West Indies will become genuinely American, and the greatness of the manifest destiny of our nationality, as the representative par-excellence of the rights of all mankind, will be sooner accomplished."

For the REPUBLICAN.

MESSRS. EDITORS.—Will you allow a little space in your valuble paper for a Bald Eagle buckwheat to state a few facts in his own rustic style, in regard to a matter that immediately concerns us—citizens of Huston twp. In the first place we have forty miles of public roads and some twenty or thirty bridges, (three of them over the Bald Eagle Creek) to be kept in repair by taxation. We pay a tax of one per cent, annually in work on said roads and bridges, together with a special tax of about half that much every few years to pay back-standing accounts; and yet travel on bad roads and unsafe bridges all the time.—One of our bridges over the Bald Eagle Creek (the one at Locust Mills), from the length of time it has been in use, has become rotten and entirely unsafe for anything to cross. Feeling ourselves unable to re-build the same, we petitioned the Court, at the August term, asking that such measures be taken in the premises as the law directs in such cases. Our petition was heard and a view granted. Three disinterested persons (freeholders and heavy taxpayers) of an adjoining township, were chosen as the viewers. They performed the duties of their appointment faithfully and impartially, reported to the Court at the November term, that a bridge was much needed at the above mentioned place, and that the expense of building the same would be more than it was reasonable to expect the inhabitants of Huston township could bear. The matter was brought before the Grand Jury. Witnesses were called and everything proven beyond a shadow of a doubt, that it was as represented. But when the great Sanhedrim (the Commissioners and their talented attorneys) discovered that if they did not make a bold unprecedented move, that that much despised Huston twp. would get her just dues. So their gifted attorneys pretended to find law that prohibited them from making an appropriation.

Now, Mr. Editor, you are a lawyer. Can you tell when there was a local Act passed that forbids an appropriation to be made to Huston township? It surely is a special act for Huston, for it cannot be possible that so much knowledge as is contained in the pates of our Commissioners and their talented attorneys, has been in error up to this time.

If they have not been in error, then they have been guilty of a misdemeanor. For I find in their last report of the receipts and expenditures of the county, that they gave to Howard twp., $436.23 Yet Howard twp. was indebted to the County at the same time $817,64. And Bellefonte, that absorbs all, or nearly all the county funds—Bellefonte that had an act passed for her especial benefit, diverting all fines and forfeited recognizances from their legitimate channel, to purchasing a Law Library for the especial benefit of a few pampered lawyers, judges and county officials. For there is no sane man outside of that borough that would have the hardihood to say that it will benefit the county at large one-half of an iota.

But to the contrary, for it is a notorious fact that a juror from this township having occasion to leave the Court House to attend to the calls of nature, and being absent about five minutes, when he returned, found a fine of five dollars entered against him. Yes, Bellefonte could ask for, and receive $500,00 for a bridge in an obscure and out-of-the-way place in that Borough, yet at the same time she owed the County in outstanding taxes the enormous sum of $7,-682,72.

Why this discrimination? Why is it that Howard twp. and Bellefonte can get what they want, although they were so far behind with their taxes? But Huston, with a clean sheet (for she does not owe one dollar except for the year 1870) cannot get anything! Echo answers, Why?

WALTHAM WATCHES.

The extensive use of these watches for the last fifteen years by Railway Conductors, Engineers and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these time-keepers.

More than 50,000 of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superiority over all others.

The superior organization and great extent of the Company's Works at Waltham, enables them to produce watches at a price which renders competition futile, and those who buy any other watch merely pay from 25 to 50 per cent more for their watches than is necessary.

These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal on nearly every invention in watch-making originating in this country or in Europe, only those were finally adopted which severe testing by the most skilfull artisans in our works, and long use on the part of the public, demonstrated to be essential to correct and enduring time-keeping.

Among the many improvements we would particularize:

The invention and use of a centre pinion of peculiar construction, to prevent damage to the train by the breakage of main-springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Fogg's patent pinion as being the best and faultless.

Hardened and tempered hair-springs, now universally admitted by Watchmakers to be the best, and used in all grades of Waltham Watches.

All Waltham Watches have dust-proof caps, protecting the movement from dust, and lessening the necessity of the frequent cleaning necessary in other watches.

Our new patent stem-winder, or keyless watch is already a decided success, and a great improvement on any stem-winding watch in the American market, and by far the cheapest watch of its quality now offered to the public. To those living in portions of the United States where watchmakers do not abound, watches with the above mentioned improvements which tend to ensure accuracy, cleanliness, durability and convenience, must prove invaluable.

The trademarks of the various styles made by the Company are as follows:

AMERICAN WATCH CO., Waltham, Mass.
ADM. WATCH CO. Waltham, Mass.
AMERICAN WATCH CO., Crescent St. Waltham, Mass.
APPLETON TRACY & CO., Waltham, Mass.
AMERICAN WATCH CO., Adams St., Waltham, Mass.
WALTHAM WATCH CO., Waltham, Mass.
P. S. BARTLETT, Waltham Mass.
WM. ELLERY, Waltham, Mass.
HOME WATCH CO., Boston, Mass.

Examine the spelling of these names carefully before buying. Any variation even of a single letter, indicates a counterfeit.

For sale by all leading jewelers. No watches retailed by the Company.

HENRY T. HELMBOLD'S IMPROVED ROSE WASH

cannot be surpassed as a Face Wash, and will be found the only specific remedy in every species of Cutaneous Affection. It specially eradicates Pimples Spots, Scorbutic Dryness, Indurations of the Cutaneous Membrane, etc., dispels redness and incipient inflammation, hives, rash, moth patches, dryness of scalp or skin, frost bites, and all purposes for which salves or ointments are used; restore the skin to a state of purity and softness, and insures continued healthy action to the tissue of its vessels, on which depends the agreeable clearness and vivacity of complexion so much sought and admired. But however valuable as a remedy for existing defects of the skin, H. T. Helmbold's Rose Wash has long sustained its principle aim to undoubted patronage, by possessing qualities which render it a Toilet Appendage of the most Superlative and Congenial character, combining in an elegant formula those prominent requisites, safely and efficacy—be invariable accompaniments of its use—as a Preservative and Refresher of the Complexion. It is an excellent Lotion for diseases of a Syphilitic Nature, and as an injection for diseases of the Urinary Organs, arising from habits of dissipation, used in connection with the EXTRACTS BUCHU, SARSAPARILLA, AND CATAWBA GRAPE PILLS, in such diseases as recommended, cannot be surpassed. PRICE, ONE DOLLAR PER BOTTLE.

Natural Artificial help to the human eye ever known,

They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name "Diamond," on account of their hardness and brilliancy. THE SCIENTIFIC PRINCIPLE on which they are constructed brings the core or centre of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural, healthy sight, and preventing all unpleasant sensations, such as glimmering and waving of sight, dizziness, &c., peculiar to all others in use. They are Mounted in the Finest Manner, In frames of the best quality, of all materials used for that purpose. *THEIR FINISH AND DURABILITY* cannot be surpassed.

Medical.

Ayer's Cathartic Pills.

For all the the Purpose of a Laxative medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use in every county and among all classes, as this mild but efficient purgative Pill.—The obvious reason is, that it is more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them: those who have not, knows that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterous drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh, and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions from the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

For **Dyspepsia or Indigestion, Listlessness, Languor and loss of Appetite,** they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, BILLIOUS HEADACHE, SICK HEADACHE, JAUNDICE or GREEN SICKNESS, BILLIOUS COLIC and BILLIOUS FEVERS, they should be judiciously taken for each case to correct the diseased action or remove the obstructions which cause it.

For **Dysentery or Diarrhœa,** but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back or Loins,** they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For DROPSY and DROPSICAL SWELLINGS they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a DINNER PILL, take one or two PILLS to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these PILLS makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Boys.

The following article which we take from the Germantown "Chronicle," will answer as well for this meridian as for Philadelphia. The fact is the genuine boy, such as he existed forty or fifty years ago, is now seldom to be found. If the species is not altogether extinct, it is at least greatly limited in number. The "Chronicle" says:

Boys will be boys—is an adage that we hear frequently enough repeated; sometimes apologetically, oftenest, perhaps, with a sigh of regret for this distressing but unavoidable perversity on the part of boys. But like many other popular maxims, it is not altogether true. We wish it were; but the trouble now-a-days is that boys will not be boys. We are fond of boys. Your genuine boy is a splendid fellow. Brave, honest, active, restless; truthful and trustful; scorning pain or danger; running, leaping, climbing, shouting; there is not a finer animal in all the world's menagerie than an out and out boy. But alas! there are boys that are no boys. There are little prigs, who never tear their clothes, or soil their boots and think it beneath their dignity to play shinny in the streets; they are no boys. And those other, learned prigs, who never miss their lessons, and never do anything naughty—if it can be found out; and the unfortunate mothers' darlings, with mufflers and overshoes and weak eyes (but poor fellows, we must not be hard on them; perhaps they would be boys if mamma would only let them); these are no boys.

Even the genuine boy is not immaculate; and we cannot always countenance his exploits. Indeed he is sometimes a nuisance, although he is often blamed for the no-boy's tricks. We are sure, for instance, that those were no boys who stoned their school teacher, the other day, in Massachusetts. If the teacher were an intolerable tyrant, as we fear many school teachers are, a real boy might snow ball him, but he would never throw stones, and these Yankee assailants must have had all the boy round out of them by their teacher's incompetence, or they would never have resorted to such a retribution.

But the most melancholy part of all this subject is the large proportion of boys who cease to be boys long before they have even begun to be men. A real thorough-bred boy remains a boy all the way up to maturity; he ripens gradually, but even in manhood retains much of the best of boyhood. But there are others, to all appearances real boys, who have a transition stage to pass through—a stage when they are neither boy nor man, neither fish, flesh, nor good red herring, but simply the most disagreeable animals imaginable.

Crowds of these nondescripts may be seen upon our Main street on a Sunday afternoon, dressed upon a scale of oriental magnificence; beardless jacks who swagger and swear and smoke and mildly tipple and make eyes at equally silly girls. Such creatures are certainly not men, and it would be an an insult to our favorites to call them boys. We have but one sensation when we encounter one of them; a desire to take him between the thumb and finger and drop him into the gutter.

Daniel Webster being once called upon to preside at a "new road meeting," in his opening remarks said, "I am in favor of all roads except"——here he was unable to think of any exception, when a friend at his elbow, seeing his dilemma, whispered, "say the road to ruin." Webster, catching the suggestion, repeated his first sentence, as if to make it more emphatic, saying, "I am in favor of all roads, except the road to ruin."

Dialogue on Newspapers.

"How does it happen, neighbor B., that your children have made so much greater progress in learning and knowledge of the world, than mine? They all attend the same school, and for what I know, enjoy equal advantages."

"Do you take the newspapers, neighbor A?"

"No, sir, I do not take them myself; I sometimes borrow one, just to read. Pray, sir, what has newspapers to do with the education of children?"

"Why, sir, they have a vast deal to do with it, I assure you. I should as soon think of keeping them from school, as to withhold them from the newspaper; it is a little school in itself. Being new every day it attracts their attention, and they are sure to peruse it. Thus, while they are storing their minds with useful knowledge, they are at the same time acquiring the art of reading. I have often been surprised that men of understanding should overlook the importance of a newspaper in a family."

"In truth, neighbor B., I frequently think that I should like them, but I cannot afford the expenses."

"Can't afford the expenses? What, let me ask, is the value of three dollars a year, in comparison with the pleasures and advantages to be derived from a well conducted newspaper? As poor as I am, I would not for fifty dollars a year deprive myself of the happiness I now enjoy of reading and hearing my children read and talk about what they have read in the newspapers. And then the reflection that they are growing up useful and intelligent members of society. Oh, don't mention the expenses—pay in advance every year, and you will think no more of it."

Home Adulteration.

We are familiar with the accounts of the manufactures of wine from whiskey, logwood, elderberries, and still more questionable articles, as carried on in this country; but perhaps few are aware that as tea is counterfeited in China, so Port Wine is adulterated in Portugal.—Baron FORRESTER, who died a few years since in that country, and who was well acquainted with its customs, and particularly with the wine manufacture, urged the Portuguese to send out only genuine, unadulterated wine. He published a description of the manner in which Port Wine was actually prepared for foreign customers. He stated that heavy additions of strong brandy were made to the grape juice, sometimes twenty gallons to each pipe of wine. Then the deep color was given by elderberries; immense quantities of this fruit dried being thus consumed. He mentions other articles, and says that the Port Wine sent out to foreign markets is a "black, coarse compound."

The wine dealers of Oporto declared that genuine Port Wine made from the grape alone, and fermented in the most careful way, would not satisfy the foreign taste, and would not sell. Some had kept only true, light colored, unbrandied Port, and they could not find foreign buyers. The orders come to Oporto for wine of such and such color and character, and the makers of wine meet the orders with their brandy and elderberries and whatever else is likely to suit the customer.

THE yield of quicksilver on our Pacific coast is steadily declining. For 1868 it was 48,700 flasks, for 1869 it was 33,000 flasks, and 29,546 in 1870. The exports have declined also from 44,506 in 1868 to 13,788 in 1870. The home consumption has increased, being 30 per cent. greater in 1870 than in 1868. But the price as steadily advances, and is now 90 cents, although it was 60 cents in 1869. If accounts from California are correct, the reason for this lies not in diminished capacity for production, but in the fact that the mines have fallen into the control of a monopoly.

New York has four colleges for women—the Ingham University, Elmira College, Vassar and Rutgers colleges. The latter has no endowment. The funds of the other three amount to a little less than $10,000; their buildings and apparatus to little less than $1,000,000. More than one-half of this is credited to Vassar College. Thus the State has more than $16,000 000 for the education of men and less than $1,000,000 for the education of women.

A Swiss colony was established in Grundy county, Tenn., in 1868. Now, after a little more than two years, the colony is in a most happy and prosperous condition—composed of over 160 families, making a population of more than 600 souls, and rapidly increasing. They are gradually surrounding themselves with evidences of thrift and comfort characteristic of old and well-settled districts.

A traveler asked an emaciated Georgian if the climate of the rice swamps was unhealthy. "Well, no," replied the loyal native "taint unhealthy; we have fever and ague all the time in these parts, but then we enjoy a powerful undertow of health."

Leather-covered bits should be substituted for metal ones in winter, since the contact of the frosty iron causes ulceration of the horse's mouth.

The Best Site for an Orchard.

Dodart first observed that trees pushed their branches in a direction parallel to the surface of the earth. If a tree stands on a steep hillside, it pushes both toward the hill and the declivity; but on both sides it still preserves its branches parallel to the surface.—The most fruitful orchards and most fertile trees are those planted on a declivity, and the steeper it is, though not quite a precipice, the more prolific they prove. It is well known that the spreading of trees always renders them fruitful. On a plane they incline to shoot upward and therefore art is employed by skillful gardeners, and applied in various ways, to check their perpendicular and promote their lateral growth. But this point is obtained on a declivity by nature.

Driving a Young Horses.

The American *Stock Journal* says: "In teaching a young horse to drive well do not hurry to see how fast he can trot. Keep each pace clear and distinct from the other; that is in walking, make him walk and do not allow him to trot. While trotting, be equally careful that he keeps steady at his pace, and do not allow him to walk. The reins while driving should be kept snug, and when pushed to the top of his speed keep him well upon the bit, so that when going at a high rate of speed he can be held at his pace, but do not allow him to pull too hard, for it is not only unpleasant, but makes it often difficult to manage him.

THE married women of Brownstown, Ind., are on the war-path, and have held a public meeting, in which they "resolved" against "worthless, lazy, whining husbands; resembling so many insolent Egyptian mummies." All of which goes to show that the Jackson County women will not do to trifle with

Miscellaneous.

The Great Medical Discovery!
Dr. WALKER'S CALIFORNIA
VINEGAR BITTERS,

Hundreds of Thousands
Bear testimony to their Wonderful Curative Effects.

WHAT ARE THEY?

They are a Gentle Purgative as well as a Tonic, possessing in a remarkable degree the peculiar merits of acting as a powerful agent in Relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. Send for a circular.

THEY ARE NOT A VILE
FANCY DRINK,

Made of **Poor Rum, Whiskey, Proof Spirits and Refuse Liquors** doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and LIFE GIVING PRINCIPLE a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by **Vitiated Blood,** which is generally produced by derangement of the **Digestive Organs.**

DYSPEPSIA OR INDIGESTION. Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE and other **WORMS,** lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle.

HOME NEWS.

O'BRYAN sells Furniture cheaper than the cheapest.

NOTICE.—School Directors, and others, are invited to call at the County Superintendents office in the Court House, and receive copies of the Pennsylvania School Report for 1870. Directors can also be supplied with copies of School law, by calling as above directed and invited.

REPAIRED.—The hole in the pavement in front of Messrs. Keller & Musser's store, has been repaired. The constant run of custom to this store is thining out their shelves amazingly. They are getting ready for the spring trade. If you want bargains, ladies and gentlemen, step in.

OYSTERS.—Messrs. Downing and Yeager, proprietors of the Logan Restaurant opposite Keller & Mussers store on Bishop street, are receiving every day oysters, large and fresh, which they sell wholesale and retail. They are both good citizens and keep a genteel, quiet well arranged restaurant.

ANOTHER BALL.—George F. Rohrer, Esq., Proprietor of the Big Spring Restaurant, has made arrangements for a supper and ball on the evening of Easter Monday. George is a success at this business, and if he goes on with it there is no doubt in our mind of it surpassing anything of the kind yet held.

CONVALESCENT.—Harvey Griffith who received a fracture of the knee cap and dislocation of the knee, some six weeks since, by falling from the roof of a building, is we are happy to learn, about again and doing very well. His recovery is evidently owing to the skillful treatment of that excellent Physician and Surgeon Geo. L. Potter.

BY REQUEST.—Rev. James Mullen Pastor of the M. E. Church in this place, will by request, of several citizens repeat his great sermon on the "Trial of Abrahams Faith" on next Sabbath evening. It is really a great sermon let all our people of all denominations make it a point to be present. Mr. Mullen will leave for Conference on Monday next.

FATAL ACCIDENT.—On Monday last, Michael Cannon a laborer at Valentines mine bank, came to his death by the falling of about a ton of ore and clay upon him, fracturing his right leg and producing a rupture of his bladder and bowels. Dr. George L. Potter was called, but Mr. Cannon lived but 2½ hours after the accident. Oh! how true it is that in the midst of life we are in death.

VISITORS.—Our sanctum was illuminated last week by the pleasant countenance of our enterprising friend James P. Odenkirk, connected with the firm of Messrs. Artman, Dillinger & Co., No. 104, North 3rd street, Philadelphia. This is a strong and reliable firm and if they were to hunt the State all over they could not find a better nor more active agent, than Mr. Odenkirk. See advertisement.

LECTURE.—A lecture will be delivered on the evening of the 17th, in St. Johns Catholic Church in this place, by Rev. M. P. Stack, of Williamsport Pa. Subject "The Irish Race." Mr. Stack is a well educated man, and, will of course entertain his audience in the best of style. His subject is a good and prolific one, and we hope that the citizens of Bellefonte will crowd the church to overflowing. We suggest that the Lecture be delivered in Reynolds' Hall instead of in the church.

TOBACCO, &c.—Persons wishing to purchase tobacco and segars, at the cheapest wholesale prices would do well to deal with Messrs. Simmons & Co., No. 408, Market street, Philadelphia. We had the extreme pleasure last week, of making the acquaintance of their agent, Mr. L. D. Apsley. Mr. Apsley is a young man of fine moral character, of great energy, kind and affable in his manner, and in every way qualified for the business in which he is engaged. Messrs Simmons & Co., may well congratulate themselves, upon having found so excellent an Agent.

NEXT MONDAY MORNING.—On Monday morning next, the 6th of March, Kurtz & Straub's new Meat and General Green Grocery will be opened to the public. A very full supply of first-class stall-fed beef, as well as other meats in season, will be furnished to customers according to order and approved style.—Fresh salt-water fish and prime oysters from the Baltimore market, will be on hand in fresh and nice order. A more full description of the general supply of provisions and dainties will be given in next week's paper, as well as a description of their market room, which has no equal for a similar purpose, in Bellefonte. Everything eatable will, in due season, be added to their general supply, and the people of the town and vicinity are cordially invited.

RAILROAD MEETING.—Pursuant to call, the citizens of Bellefonte met in the Court House, on Saturday evening February 25th, for the purpose of considering the propriety of subscribing stock to the proposed branch rail-road, from Bellefonte to intersect the Lewisburg, Centre and Spruce Creeek R. R., at or near Boalsburg. On motion of E. Blanchard. D. G. Bush was chosen President and Michael Grove, Moses Thompson, Henry Brockerhoff and Jno. Irwin Jr., Vice Presidents, and M. T. Milliken, J. D. Shugert and P. Gray Meek Secretaries.

The objects of the meeting were ably stated by Mr. Bush, when on motion of M. T. Milliken, Edward Blanchard Esq., addressed the meeting. He showed the urgent necessity of the speedy completion of the proposed route, the great benefits our town and county would derive from it, the extortionate rates imposed by the Bald Eagle Valley Railroad company, stated that the estimated expense of grading the nine miles would be $90,000, pledged the Snow Shoe company for two thirds of that amount, and closed by submitting the following, for signers:

We the undersigned, hereby agree to subscribe the sums set opposite our respective names to the capital stock of the Lewisburg, Centre and Spruce Creek Railroad Company, to be paid to the Treasurer of said company in such sums and at such times as they may require, to be applied to the grading and bridging of the Railroad from Bellefonte to the North Western end of Nittany mountain in Centre County: *Provided* —the Bellefonte and Snow Shoe Railroad Company subscribe two thirds of the actual cost of the grading and bridging said line of road, and the balance required for said work be bona-fide subscribed or guaranteed by the citizens of Bellefonte and persons interested in the connection of said branch road with the L. C. & S. C. R. R., and, *Provided* further, that the superstructure be laid on the road-bed by the L. C. & S. C. R. R. Company, as fast as the grading is done and certificates of stock issued to subscribers as the work progresses:

During the taking of subscriptions, W. W. Brown, Esq., was called upon and made a telling and humerous speech, which elicited frequent rounds of applause. On motion of E. Blanchard a committee to solicit subscriptions was appointed. The committee consist for the upper end, Moses Thompson, Michael Grove, middle district, Harvey Mann, Bellefonte, P. B. Wilson, D. G. Bush; Charles McCaferty and Adam Hoy. On motion the meeting adjourned.

PROTRACTED MEETING.—A protracted meeting has been in progress in the M. E. Church at Potters Mills, for a little over three weeks. On Tuesday night the 21st ult., 80 conversions were reported, 60 of whom united with the church. Rev. J. W. Houghawaut is preacher in charge. The membership has been greatly revived, hundreds flock to the church every evening, and the good work goes on.

OBITUARY.—On the 25th February, 1871, at his residence in Harris township, Thomas H. Burrows, L. L. D. in the 67 year of his age.

Very few men have filled so large a space in the affairs of this Commonwealth, as has the individual whose demise is above announced. A brief recurrence to his life will show the truth of this statement. Mr. Burrows was born near the village of Strasburg, in Lancaster county, in the year 1804. After he attained manhood, he entered into the practice of law at Lancaster; represented his county in the House of Representatives in 1830-31; was Secretary of the Commonwealth and Superintendent of Common Schools from December '35 to January, 1839; Editor and founder of "Pennsylvania School Journal," from July, 1849 until July. 1870; again Superintendent of Common Schools during the term of the late Gov. Packer, from 1860 to 1863; Superintendent of the School for soldiers orphans, by appointment of Gov. Curtin, 1865-66; and President of the Agricultural College of Pennsylvania, from February, 1860 until his death on Saturday last. In all the various positions he had the fortune to occupy, he faithfully, honorably and energetically fulfilled all duties pertaining to them. He was a man rarely endowed, being learned and credite but pleasant and cheery in his conversation, which was always interspersed with anecdotes of the witty sayings of those with whom he had been on familiar terms.

The following preamble and resolutions have been handed us for publication:

At a special meeting of the Faculty of the Agricultural College of Pennsylvania, held Monday morning, Feb. 27th, 1871, the following preamble and resolutions were unanimously adopted, viz:

Whereas, It has pleased Almighty God in His infinite wisdom, to remove, by death, from our midst, our beloved President and co-laborer, Hon. Thomas H. Burrows, L. L. D., therefore, be it

Resolved, 1st. That while we bow in submission to the Divine will, we feel that, in his death, the Faculty of the College has lost a devoted leader, a trusted counsellor, and a friend endeared to each member by many an act of personal kindness and affection.

2d. That, in respect to the memory of the deceased, all secular duties of the College be suspended, and that the Faculty, students and employees of the Institution, attend the funeral and accompany the remains to the depot.

3d. That we offer our sympathies to the family of the deceased, and rejoice with them that his last hours were brightened by the enduring hope of a better life.

4th. That a copy of these resolutions be presented to the family, and that they be published in the papers of Centre county and in the daily papers of Lancaster city.

FIREMENS BALL.—On the 16th ult., the Logan Hose, Hook and Ladder Co., according to previous announcement had a grand ball in Bush's Hall, and a magnificent supper at the Bush House, gotten up by its new Proprietor Frank McClain and his amiable lady. The Milesburg String Band, one of the very best in the whole country, arrived early in the evening, and at about 8 o'clock the ball commenced. The Editors all had free tickets, besides sundry extra invitations to supper. As dancing is not our forte, of course we were but an idle spectator until the time came for the announcement that "supper is ready." Of course we need make no further allusion to ourself. About 60 couples were present. Sober, well behaved young men were there in all the sprightliness of youth and vigorous manhood, with their gay and beautiful partners, each looking and acting as if

"Grace was in all her steps heav'n in her eye,
In every gesture dignity and love."

And we are free to confess that we never witnessed such dancing nor heard such music before. Not a single case of intoxication, was seen in the hall, not a single unbecoming word spoken, no unnecessary noise; but all passed off in the most genteel and respectable manner.

The supper as we have already said was a magnificent one, we think we can safely say we never partook of a better, and convinced every person present that Frank McClain is the right man in the right place, and is certain to succeed as a caterer and landlord. The supper was announced at 12 o'clock precisely. After all had partaken, the entire party returned to the Hall where dancing was resumed and continued until 4 o'clock in the morning. The Ball was a complete success, and the company realized a handsome profit. Wm. Galbraith, Jacob Pence, James T. Cartin, Robert H. Irwin and Z. T. Gudykunst, members of the committee of arrangement, deserve great credit for the manner in which everything was managed.

WE print the advertisement of the American Watch Co. in another column. In addition to the large assortment of watches made by this Company, they desire to call special attention to the Watch for railway engineers, conductors and expressmen. Also their Boys' Watch, which is now first placed on the market, and to which they desire to call the attention of *Young America*.

MILITARY.—Last Wednesday being the 22nd of February was a lively day in our town. The banks and many of our business houses observed it as a holiday. This is as it should be. The Fourth of July, will, long as we endure as a nation, be the great national holiday inasmuch as it was on this day, that the nation as such was born; but next in importance will be the 22d of February —the birthday of the great captain, by whose zeal, heroism and personal sacrifices our independence was achieved. This day like the 4th of July, is an epoch in our national history, and should ever be held in grateful remembrance by all true patriots. The Hose, Hook and Ladder Co., were out early in the morning in full uniform, and paraded the principal streets, drawing after them their beautiful Hose Carriage. They looked beautiful. In the absence of the Chief Director, W. S. Wagner, Capt. A. B. Hutchison commanded the company. The Seller Zouaves arrived about 10 o'clock a. m., and were received by the "Red Shirts" in good style. The Seller Zouaves is a splendid military company, composed of well formed, good looking and moral young men. The company is commanded by Capt. P. E. Sellers, George Baisor is First Lieutenant. The company is well drilled.

The Unionville Cadets arrived in the 11 o'clock train and was received by the Hose Company and the Zouaves, when they all marched up town with colors flying and drums beating, and our friend Lawrence Bathurst blowing his fife as few other men can blow that instrument. Hundreds of old veterans were present, and oh! how their eyes sparkled and their hearts stirred within them when they heard, to them, the familiar music of the fife and drum.

The three companies, the Hose company in front, then marched through our principal streets keeping excellent time. Every body was on the street, and all appeared to be exceedingly happy. The Cadets were commanded by Capt. Vanvalin, Cal Smith First, and Alonza McEwen Second Lieutenants. The uniform of the company is the familiar and beautiful national blue. The company looked well and are well drilled.

Taken altogether, we have not had such a general, happy and so orderly an observance of the 22d for many years. We hope our military friends will come again, and that when they do come our citizens will provide a dinner for them.

COCOA CAMPHORINE beautifies the complexion.

For the REPUBLICAN.

UNIONVILLE.—On the 19th and 20th, ult., the Friends Quarterly Meeting was held in this place. The principal minister in attendance was Darlington Hoops of Maryland, whose labors were much appreciated. The meeting was largely attended by members from other counties, also by many other denominations in this county.

The Presbyterians very generously deferred their meeting in the forenoon and attended the Friends meeting. Many of the Methodist brethren were also in attendance during the afternoon session. This is what we desire—that all should come and *see*, and *hear*, and *judge* for themselves of the principles of Friends, instead of staying away and misrepresenting them, as is the case in some localities.

The Presbyterians have been holding a meeting for the last week, reviving the spirit of religion amongst them.

The Methodists are also having a revival, and we understand some have embraced religion; so all may see that this small village is well blessed with laborers in the great work of reformation.

Soon we shall look forward to the dawning of spring, (which brings so much joy and comfort to all) to take the place of the gloomy and dreary reign of winter, which has so long encircled us, and with its coming we look forward to the 10th of April, when Eden Seminary will open its Spring Session of ten weeks; which institution we think the young men and ladies of Centre county will do well to attend. Although it has not been extensively made known abroad, it has been quietly doing a great good at home.

Any one wishing circulars, address Edith W. Cleaver, Fleming, Pa.

A CITIZEN.

THE BUSH HOUSE.—By reference to another column of the REPUBLICAN our readers will learn that, that prince of good fellows, Frank McLain has taken the Bush House with all the furniture, fixtures, Billiard tables, &c. The Bush House is one of the largest hotels in central Pennsylvania, containing 110 well furnished rooms. Mr. McLain has made several changes for the better. The basement room formerly occupied by the *National* newspaper, has been converted into a bar and billiard-room. In short, everything about the house has been improved, and our friend McLain has determined to make it pay. He is a a good clever man, well known by the people. He deserves success, and we hope he will meet with it.

TO THE TRADE.—I desire to call the attention of the trade to my stock of lake fish, having, for the past thirteen years, made this branch of business a specialty. My stock, at this time, is the largest ever held in this city. I am prepared to furnish dealers, promptly, by the dray or car load, and have made arrangements for shipping by the car load, at special rates, from Detroit, Sandusky, Huron, Vermillion or Cleveland, and also from Pittsburgh to any points in Pennsylvania or Ohio, as shippers may with. I would also call the attention of dealers to my extensive assortment and stock of corn brooms, broom corn, and broom materials, all of which I can supply at very low rates.

CHEAP BOOTS, &c.—Powers & McLain notify the people of this and surrounding counties, that up to the 17th of March, they will sell Boots and Shoes for men, women and children, cheaper than they can be purchased at any other establishment in the town or country.—Now is the time for persons having spare money, to purchase their stock of shoes for the next six months or a year. John Powers, one of the best Boot and Shoemakers in the whole county, continues to manufacture his unequaled French calf Boots, ladies shoes, &c.—Remember the place, and be sure to call between this time and March 17th.

DENTISTRY.—In another column of REPUBLICAN will be seen the professional card of Dr. J. D. Wingate, one of the best Dentists in Central Pennsylvania, and we doubt very much if he is excelled in the State. The Doctor sold his property and had some notion of leaving Bellefonte; but he found that he was so attached to the town and his old friends, that he could not tare himself away. He has purchased another property and made up his mind to spend the balance of his days in Bellefonte, and give the people the benefit of his superior skill as a Dentist. Read his card.

IF YOU FEEL dull, despondent, drowsy, debilitated, have frequent headache, mouth tastes badly, poor appetite, and tongue coated, you are suffering from torpid liver, or "Biliousness." Nothing will cure you so speedily and permanently as Dr. Pierce's Alt. Ext. or Golden Medical Discovery. It also cures all severe lingering Coughs and tones up and strengthens the whole system.—Sold by druggists. To avoid Counterfeits see that Dr. Pierce's private U. S. Government Stamp is on the outside wrapper.

SPEER'S "STANDARD WINE BITTERS." When our systems are in anywise out of order, we are, more or less, incapable of performing our duties for want of energy.
